

FISHING FOR CHANGE IN OUR MIGRATING MARSH

Join us for a free workshop!

Explore how our choices help preserve the resources we care about.

Participants will have the opportunity to:

- Identify how long term changes to our marsh affect the fishing resources and surrounding habitats.
- Discuss how we can protect and adapt to changes in these ecosystems.
- Provide input on how to spread the word and make a difference.

Who should attend? Local anglers, resource managers, or any others interested in protecting our local resources

DETAILS

When

Saturday, February 25, 2017
8:00am – 12:00pm

Where

Bay Education Center
121 Seabreeze Dr, Rockport, TX
