

IMAGINE A WORLD

Where meetings are
effective, collaborative,
and productive.

Learn to design meetings that enhance problem solving and minimize conflict. This course teaches attendees how to conduct meetings, both big and small, that reach specific goals—and it provides the tools and techniques needed to handle disruptive behaviors.

Previous attendees had great things to say about the training:

"I've already put these skills to use!"

"My monthly meetings are now faster, and I'm getting better results."

"This training has REALLY proven helpful in all aspects of what I do."

"This course helped me feel confident enough to handle a disruption."

March 7 to 8, 2017

9:00am – 5:00pm

University of Texas Marine Science Institute
Mission-Aransas National Estuarine Research Reserve
750 Channel View Drive, Port Aransas, TX 78373
