

UT Austin Mass Spectrometry Imaging Short Course and Workshop

October 3-6, 2022

Name _____

Email _____

Phone _____

Institution _____

I will attend:

Classroom Instruction – Tuesday, October 4 and Wednesday, October 5

Hands-On Lab Instruction – Please rank choices for lab date

Monday, October 3

Thursday, October 6

Friday, October 7

My imaging experience level is:

Newbie, never done it

Some exposure, but limited working knowledge

Basic understanding, but looking to learn more

Lots of experience, want to learn more advanced techniques

My mass spectrometry experience level is:

No experience

I have used mass spectrometry, but have limited understanding of how it works

I have good working knowledge of mass spectrometry and mass spectrometers

I am an expert in mass spectrometry

Other, please explain

In a few sentences, please let us know what you are most hoping to get out of this course

Please send completed registration form or any questions to Erin Seeley (erin.seeley@utexas.edu).
