

UT Austin Mass Spectrometry Imaging Short Course and Workshop

July 15-19, 2024

Name _____

Email _____

Phone _____

Institution _____

I will attend:

Classroom Instruction – Tuesday, July 16 and Wednesday, July 17

Hands-On Lab Instruction – Please rank your choice for lab date, you will only attend 1 day

Monday, July 15 - Focus on Thermo/MassTech

Thursday, July 18 - Focus on Bruker

Friday, July 19 - Instrumentation Focus TBD

Cardinal Workshop Led by Kylie Bemis, please choose one

Monday, July 15, afternoon

Thursday, July 18, morning - may be switched to virtual at a later date

My imaging experience level is:

Newbie, never done it

Some exposure, but limited working knowledge

Basic understanding, but looking to learn more

Lots of experience, want to learn more advanced techniques

My mass spectrometry experience level is:

No experience

I have used mass spectrometry, but have limited understanding of how it works

I have good working knowledge of mass spectrometry and mass spectrometers

I am an expert in mass spectrometry

Other, please explain

In a few sentences, please let us know what you are most hoping to get out of this course:

I will attend the Pizza Party Wednesday afternoon at the conclusion of the lectures:

Yes

No

Do you have any dietary restrictions? If so, please list them.

Please send completed registration form or any questions to Erin Seeley (erin.seeley@utexas.edu).
